

FORAGED WEAVINGS

FORAGING IS ALL ABOUT LOOKING AROUND YOU FOR SUPPLIES. IT'S SOMETHING HUMANS HAVE DONE SINCE THE BEGINNING OF TIME. PEOPLE HAVE LIVED OFF THE LAND BY FORAGING FOR FOOD. MAKERS HAVE USED FORAGED MATERIAL TO MAKE PIGMENTS FOR PAINTINGS AND DYES FOR CLOTHES.

**FORAGED WEAVINGS UTILIZE THE RESOURCES WE HAVE AROUND US.
THEY CAN BE NATURAL OR RECYCLED!**

EXAMPLES OF NATURAL MATERIALS:

LEAVES, FLOWERS, GRASSES, BARK, TWIGS, VINES, STRAW/HAY...

EXAMPLES OF RECYCLED MATERIALS:

SHOELACES, STRAWS, RIBBON, PLASTIC BAGS, JUNK MAIL, EMPTY SNACK BAGS...
